

April 16, 2021

Dear CUPE Local 15 Member:

The Health Care Presidents' Council, which represents members in five locals, is conducting a workload and COVID-19 survey.

The COVID-19 pandemic has caused increased strain on an already burdened health care system in B.C. This survey will help us understand workload concerns for members from the Community Health Bargaining Association (CBA) and Health Science Professionals Bargaining Association (HSPBA), both throughout and predating the pandemic. The results of this survey, which will be kept confidential, will be used to give CUPE a greater understanding of workload concerns for our members and help us determine what kind of tools and support mechanisms members need and how to best deliver them.

We are asking you to complete this survey by Friday, April 30th. The survey should take approximately ten minutes to complete. You can access it [here](#).

If you have any concerns or questions about the survey please contact Tanya Paterson, National Representative CUPE Health Care Coordinator, at tpaterson@cupe.ca.

In solidarity,

A handwritten signature in black ink, appearing to read "Warren Williams".
