- ELL Update

UPDATES

Secondary Schedule Model 2021-2022

Semester System

As schools build schedules, they will endeavor to balance elective and non-elective courses over the span of the timetable. Additionally, counsellors will work to try to balance out individual timetables, as they did in the day 1/day 2 schedule. There will be constraints at smaller schools as well as when students are choosing courses that have only one or two sections. This year, because of the transposing of a linear system onto a quarter model, administrators were not able to build more balanced schedules.

Schools will design ELL structures to support students over the course of the entire year. An advantage of a semestered system is that ELL students will have the opportunity to progress with more flexibility. For example, an ELL student could take English 11 semester 1 and English First People's 12 semester 2 and graduate without having to pick up the grade 12 language arts credit at adult education.

Framework for Enhancing Student Learning (FESL)

The content for the Annual FESL Report is outlined on p.24-27 of the <u>Updated Implementation Guide</u> (attached). Appendices are attached for reference. The Implementation Guide and appendices are

meant for staff to assist in the implementation of the FESL policy, therefore, many of the appendices are only available through the MOE sharepoint site using a user id and password provided to a few district staff.

The work of the working group is underway, and the draft annual report will be written in July/August. The working group will have a follow up meeting on Sept 9, 2021, to go over the draft report prior to the report being presented at SLWB in September. The report will then go to the Board for approval for publication in September. All districts must submit an annual FESL report by September 30, 2021, to the Ministry of Education.

Block Rotation

Regardless of school schedules, there will still be some students who will be late for class or miss classes due to extra-curricular activities. For students who are late, teachers, counsellors and administrators work with students and their families to devise a plan to have students attend their scheduled classes. Students who miss classes due to extra-curricular activities are expected to make up missed work and teachers will continue to provide support for students to do so.

There are two primary reasons for a fixed block rotation. First, parents and students expressed a desire through feedback collected this year to have a fixed schedule to better facilitate scheduling with out-of-school activities. Second, a fixed schedule significantly helps part-time staff balance work and non-work schedules.

ELL Update

Bruce Garnett, District Principal, Newcomer Welcome Centre, has reached out to Stephanie Angel-Garay and she is contacting the rest of the delegation to coordinate a time to meet.

INFORMATION ITEM REQUESTS FOR 2021-2022

ENHANCING STUDENT LEARNING REPORTING ORDER

Authority: School Act, sections 81 and 168 (2) (t)

Ministerial Order 302/20 (M302/20) Effective September 1, 2020 Orders of the Minister of Education

Interpretation

- 1 In this order,
- "board" includes a francophone education authority;
- "**Indigenous peoples**" has the same meaning as "aboriginal peoples of Canada", as defined in section 35 of the *Constitution Act*, 1982;
- "Indigenous student" means an individual who self-identifies as a member of an Indigenous people, is of school age and meets the definition of student under section 1 of the *School Act*; and "reserve" means a reserve as defined in the *Indian Act*, R.S.C. 1985, c. I-5.

Annual enhancing student learning report

- 2 Each year, a board must prepare and submit to the Minister a report completed in accordance with this order between June 30 and September 30, or a date otherwise determined by the Minister.
- **3** A report completed under section 2 must include the following information regarding student performance, including outcomes and measures as set out below:

(a) Intellectual Development

Educational Outcome 1	Students will meet or exceed literacy expectations for each grade level.
Measure 1.1	Current year and 3-year trend for the number and percentage of students in grades 4 and 7 on-track or extending literacy expectations as specified in provincial assessments.
Measure 1.2	Current year and 3-year trend for the number and percentage of students proficient or extending literacy expectations as specified in the Grade 10 literacy assessments.
Educational Outcome 2	Students will meet or exceed numeracy expectations for each grade level.
Measure 2.1	Current year and 3-year trend for the number and percentage of students in grades 4 and 7 on-track or extending numeracy expectations as specified in provincial assessments.
Measure 2.2	Current year and 3-year trend for the number and percentage of students proficient or extending

ENHANCING STUDENT LEARNING REPORTING ORDER

	numeracy expectations as specified in the Grade 10
	numeracy assessments.
Measure 2.3	Number and percentage of students who are
	completing grade to grade transitions on time

(b) Human and Social Development

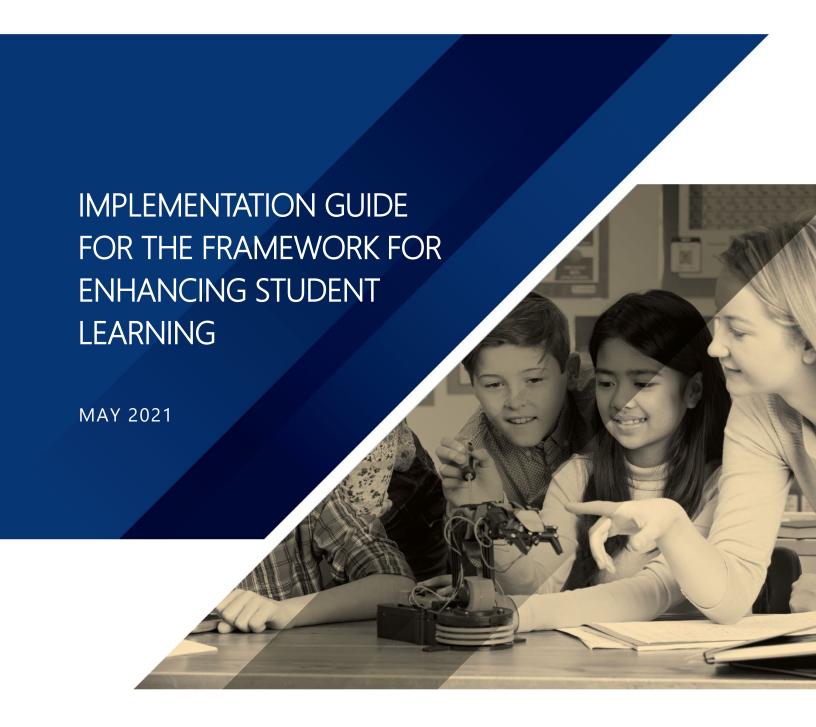

Educational Outcome 3	Students will feel welcome, safe and connected to their school.
Measure 3.1	Number and percentage of students in grades 4, 7, and 10 who feel welcome, safe, and have a sense of belonging in their school.
Measure 3.2	Number and percentage of students in grades 4, 7, and 10 who feel there are two or more adults at their school who care about them.

(c) Career Development

Educational Outcome 4	Students will graduate.
Measure 4.1	Number and percentage of resident students who achieved a BC Certificate of Graduation Dogwood
	Diploma within 5 years of starting Grade 8.
Educational Outcome 5	Students will have the core competencies to achieve
	their career and life goals.
Measure 5.1	Number and percentage of students transitioning to
	Canadian post-secondary institutions within 1 and 3
	years

- 4 The report prepared in accordance with sections 2 and 3 must establish categories for each of the following student populations and report on those categories separately:
 - (a) Indigenous students
 - (i) living on reserve, and
 - (ii) living off reserve;
 - (b) children and youth in care; and
 - (c) students with disabilities or diverse abilities.
- 5 The report completed under section 2 will also include information relating to the board's approach to continuous improvement of student achievement.
- **6** The report completed under section 2 must not exceed 10 pages in length.

Ministry of Education Government of British Columbia Implementation Guide for the Framework for Enhancing Student Learning May 2021

The Framework for Enhancing Student Learning (hereafter, the Framework) formalizes the planning and reporting expectations for school districts in order to enhance student learning and success. The Framework reflects a public commitment by Indigenous rightsholders and Indigenous peoples, education partners and communities to work together to continuously improve student learning in relation to intellectual, human and social, and career development. The Framework requires alignment of provincial K-12 accountability and evidence-informed practices that enhance student learning, inclusivity and equity of outcomes.

The Framework was led by the Ministry of Education and developed through authentic engagement with provincial education partners, Indigenous rightsholders, Indigenous peoples and in particular:

- BC School Trustees Association
- BC School Superintendents Association
- BC Principals' and Vice Principals' Association
- BC Association of School Business Officials
- BC Teachers' Federation
- BC Confederation of Parent Advisory Councils

- First Nations Education Steering Committee
- Métis Nation British Columbia
- Canadian Union of Public Employees
- BC Student Voice
- BC Council of Administrators of Special Education
- Office of BC's Representative for Children and Youth

The Ministry would also like to acknowledge the participation of the nine districts in the early implementation pilot for the <u>Framework for Enhancing Student Learning Policy</u> during the 2019-2020 school year. Their contributions to the policy development and implementation planning was helpful in creating the final policy and this guide. The nine pilot districts are:

- SD6 Rocky Mountain
- SD27 Cariboo-Chilcotin
- SD38 Richmond
- SD42 Maple Ridge-Pitt Meadows
- SD60 Peace River North

- SD64 Gulf Islands
- SD68 Nanaimo-Ladysmith
- SD73 Kamloops-Thompson
- SD79 Cowichan Valley

This implementation Guide for the Framework for Enhancing Student Learning was developed to support Boards of Education to fulfil the responsibilities as outlined in the <u>Framework for Enhancing Student Learning Policy</u> and <u>Enhancing Student Learning Reporting Order</u>.

A shared commitment to improve student success and equity of learning outcomes for every student in public education in British Columbia

The planning and reporting processes that school districts use to improve educational outcomes are integral to public assurance and accountability. This implementation guide is intended to share research-informed strategies and promising practices collected from the sector to build capacity. As part of a continuous improvement review cycle, the Ministry will update this document annually to include adapted strategies collected from the sector.

This document provides the policy requirements and guidelines for:

Throughout the document, these ICONS will indicate both required and helpful information.

Also included are promising practices from the sector through short Sector Talks, informative learning bursts to complement the components of effective strategic planning and reporting. These Sector Talks will continue to be co-created and incorporated into the guide as they become available.

SECTION A: BACKGROUND

POLICY VISION

British Columbia's education system continues to evolve as evidence of progress is used to inform practice, discover the best ways to support continuous improvement and build public trust and confidence in the quality and inclusivity of education provided. Over the past several years, provincial education partners and Indigenous rightsholders have been engaged with the development of a *Framework for Enhancing Student Learning* within the context of system improvement. Through this work, our current approach to continuous improvement has been broadened to encompass alignment of efforts and measures based on common values and a shared commitment to improve student success, equity and inclusivity of outcomes for all students with a particular focus on Indigenous students, children and youth in care and students with disabilities or diverse abilities.

The *Framework for Enhancing Student Learning* provides the system-wide planning and processes structure to improve student outcomes and ensure continuous improvement throughout the provincial public education system. It is a collective approach that recognizes and fosters diversity, acknowledges and respects Indigenous ways of knowing, relies on evidence-informed decision making, and is responsive to the various needs of students while respecting local autonomy to deliver educational programs.

BC's Framework for Enhancing Student Learning has been developed collaboratively with education partners and Indigenous rightsholders. The Framework outlines the following key components to ensure continuous improvement of educational outcomes for all students:

- 2| System-wide Focus
- 3| Multi-year District and School Plans
- 4| Planning Based on Meaningful Evidence
- 5| System-wide Capacity Building
- 6| Student, Family and Community Agency

LEGISLATIVE AUTHORITIES AND COMMITMENTS

Provincial, district, and school educational planning and outcomes should align with legislation, policy, declarations, agreements and reports including but not limited to the following (See <u>Appendix J</u> for Legislation List):

- 1| <u>School Act</u> ss. 8.3, 65 (1.1), and 81 and 168 (2) (t)
- 2| Statement of Education Policy Order (Mandate for the School System)
 - a. Goals of Education
 - b. Educated Citizen (OIC 1280/89)
 - c. Policy for Student Success

BUILDING CAPACITY

The Ministry of Education, rightsholders and provincial education partners are committed to ongoing work together to review and continuously improve the *Framework for Enhancing Student Learning*, as well as its related guidelines and supports. This is an opportunity to build and enhance existing planning and reporting practices, to monitor the implementation of the *Framework* and guidelines, and to make improvements informed by sector-based experiences, practices and Indigenous ways of knowing.

The Advisory Committee for Enhancing Student Learning, school districts, education partners and Indigenous rightsholders will continue to suggest improvements to the *Framework* implementation processes and requirements.

Networking, professional learning opportunities and other activities related to the implementation of the *Framework* will be communicated through *The Source* located on the <u>Ministry Reporting SharePoint for School Districts</u> site. As they become available, sample planning resources for school districts will also be posted. Examples of promising practices for planning, use of evidence and capacity-building to enhance student learning will be continuously collected and posted.

SECTION B: BUILDING COHERENCE

The planning and reporting processes that school districts are expected to use should reflect the goals and objectives of the Ministry Service Plan, align with the Framework for Enhancing Student Learning Policy and reflect the Building Coherence in Planning for Student Success diagram (see Appendix E).

A shared commitment to improve student success and equity of learning outcomes for every student in public education in British Columbia

GUIDING PRINCIPLES

The Framework for Enhancing Student Learning:

- 1| creates a system-wide focus on individual student learning to ensure all students in BC achieve their full potential;
- 2| continues to build public trust and confidence in BC's education system by ensuring that all students are provided a high quality learning experience;
- 3| provides a structure to ensure that what is measured and reported is consistent with the focus on student success and in keeping with the goals of education in the province of British Columbia;
- 4| ensures capacity building and a system-wide commitment to continuous improvement and lifelong learning;
- recognizes that all education partners and Indigenous peoples and Indigenous rightsholders, each with unique contributions, share responsibility for student learning;
- 6| recognizes the individual learning needs of students and fosters equitable and inclusive learning environments;
- 7| focuses on intellectual, career, human and social development; including exploration of one's identity;

A shared commitment to improve student success and equity of learning outcomes for every student in public education in British Columbia

- 8| facilitates communication and ongoing authentic engagement of Indigenous peoples and Indigenous rightsholders in respectful collaborative action;
- 9| facilitates communication and ongoing authentic engagement of education partners in respectful collaborative action;
- **10**| reflects local contexts, enabling innovative and flexible responses in classrooms, schools and districts with necessary supports from government;
- 11| supports growth and achievement among particular groups of students, most notably Indigenous students, children and youth in care, and students with disabilities and diverse abilities;
- **12** consistently uses evidence from a variety of sources to ensure responsive and transparent decision-making; and
- 13| commits to demonstrating fiscal responsibility and effective stewardship of resources in supporting system and student outcomes.

A shared commitment to improve student success and equity of learning outcomes for every student in public education in British Columbia

SECTION C: COLLECTIVE COMMITMENTS

While respecting local autonomy to deliver educational programs and ensuring continuous improvement, the system requires a collective approach that recognizes diversity in British Columbia; relies on evidence-informed decision making; and is responsive to the needs of students (see <u>Appendix A</u>).

As per the Framework for Enhancing Student Learning Policy:

THE MINISTRY OF EDUCATION WILL:

☑ Provide provincial oversight of policy including:

- REQUIRED
- o conduct a review program to ensure boards of education continuously improve educational outcomes;
- o publish educational outcomes and measures for each school district each year. Results will be provided for all students and separately for each of the following student populations: Indigenous students, children and youth in care, and students with disabilities or diverse abilities. The provision of student results is subject to the <u>Freedom of Information and Protection of Privacy Act (FOIPPA)</u> and the Ministry's <u>Protection of Personal Information when Reporting on Small Populations</u> policy; data for small student groups may be masked to protect student privacy;
- collaborate with Indigenous peoples and key education stakeholders throughout the process;
 and
- work with boards to build capacity along a continuum of supports including communicate, facilitate, cooperate and direct using provincial and local information.

BOARDS OF EDUCATION WILL:

- Develop and implement a multi-year district strategic plan and individual school plans and will publish these annually on or before September 30;
- ✓ Use the district strategic and individual school plans to align all district annual operational plans, including but not limited to financial, human resources, Information Technology, engagement and communications and long-range facilities plans, with the educational objectives from the district strategic plans and

o reviewing the alignment of the school district strategic plan and the results of the educational outcomes for the school district to address student outcome deficiencies and inequities;

A shared commitment to improve student success and equity of learning outcomes for every student in public education in British Columbia

- o acting on findings coming out of the continuous improvement review; and
- collaborating with Indigenous peoples and key education stakeholders throughout the process.

Boards will submit an annual report to the Minister in accordance with the requirements in the <u>Enhancing Student Learning Reporting Order</u> (see <u>Appendix B</u>).

TO SUPPORT THE OUTCOMES OF THE FRAMEWORK FOR ENHANCING STUDENT LEARNING POLICY, STUDENTS, PARENTS/GUARDIANS, EDUCATION PARTNERS, INDIGENOUS RIGHTSHOLDERS AND INDIGENOUS PEOPLES ARE ENCOURAGED TO:

- ☑ Provide guidance to implement the <u>Framework for Enhancing Student Learning Policy</u>;
- ☑ Provide guidance on accountability, implementation and capacity building in the education sector;
- Continue to approach issues collaboratively with an objective, open and collegial intent to problem solving, advising, and decision making;

A shared commitment to improve student success and equity of learning outcomes for every student in public education in British Columbia

SECTION D: PLANNING FOR IMPROVEMENT

Develop and implement a multi-year district strategic plan and individual school plans

School districts and public schools are expected to develop multi-year plans for enhancing student learning and to update these plans annually at a time determined by each school district. These plans are public reports and should be accessible to all local communities.

Boards will develop and publicly communicate their process for strategically engaging Indigenous peoples, Indigenous rightsholders, and local education partners including Indigenous Education Councils and District Parent Advisory Councils to develop, implement, monitor, evaluate and align school district plans. Educational outcomes for Indigenous students, children and youth in care and students with disabilities or diverse abilities vary significantly, and numerous factors contribute to the level of educational success they experience. Additional efforts are necessary to improve educational outcomes for these students. For example, to ensure consistent and relevant support for Indigenous students, school district plans under this *Framework* would reflect commitments in existing agreements with local First Nations, Métis Chartered communities and Indigenous communities, including Aboriginal Education Enhancement Agreements, Equity Action Plans and Local Education Agreements. Boards will jointly determine with Indigenous Education Councils any educational strategies that are focused on Indigenous students and reflected in strategic plans.

To review and seek further input for the plan and prior to approving the strategic plan, a board should engage parents/guardians, students, Indigenous rightsholders and Indigenous peoples through established advisory structures at the school district and school levels.

In each school year, every board of education in British Columbia will make public their district and school plans for enhancing student learning. The *Framework's* guiding principles and the following components should be reflected in their respective plans.

KEY COMPONENTS OF EFFECTIVE STRATEGIC PLANNING

A | Alignment toward common vision for the education system

District goals will demonstrate clear alignment with the Educated Citizen.

A shared commitment to improve student success and equity of learning outcomes for every student in public education in British Columbia

District strategic plans will:

- align with Ministry Service Plan goals (<u>Appendix C</u>) and objectives and provincial educational outcomes and measures;
- provide a system-wide focus for enhancing student learning, helping to facilitate increased coherence to province-wide educational planning and continuous improvement efforts at the provincial, district, school, and student-levels;
- align with school plans and with the broader provincial priorities; and
- reflect other key commitments in place to establish coherence, e.g.: Aboriginal Education Enhancement Agreements, Equity in Action Plans and Local Education Agreements.

B| Strategic Engagement for Setting District Goals

Goals are:

- developed with Indigenous rightsholders and Indigenous peoples through Indigenous Education Councils; First Nation Education Councils; Métis Chartered communities; other existing committee structures;
- reflective of existing Local Education Agreements, Equity Action Plans or Aboriginal Education Enhancement Agreements to ensure consistent and meaningful support of Indigenous students;
- developed with education stakeholders such as District Education Committees; District Parent Advisory Councils; community forums; and other existing committee structures;
- proactively attentive to unique local contexts; and
- developed with careful consideration of provincial goals and the local context. Care should be taken to communicate this information in meaningful and effective ways, enabling members of the local community to understand the value of this information, and how it is being used to enhance student learning.

Sector Talk Video: <u>Engagement in an Urban Setting</u> with Val Windsor **Description**: Learn how engagement in an urban setting can be an effective tool in forming a robust strategic plan.

A shared commitment to improve student success and equity of learning outcomes for every student in public education in British Columbia

C | Clear Focus on Improving Student Outcomes

The strategic plan should lead to stronger outcomes for students with an emphasis on students with learning support needs.

District strategic plans:

- build on the <u>Policy for Student Success</u> system-wide goals for supporting student learning:
 - Intellectual development
 - Human and social development
 - Career development (including skills development and transitions to post-secondary education)
- focus on achieving student success and educational outcomes for all students regardless of residence in the province;
- focus on achieving equity for Indigenous students, children and youth in care, and students with disabilities or diverse abilities;
- expand focus on achieving equity for students regardless of diverse abilities, medical diagnosis, race, colour, ancestry, place of origin, religion, physical or mental disability, academic ability, family status, sex, sexual orientation, gender identity or expression; and
- consider evidence-informed information that will enhance learning and success for each student.

D| Evidence-informed Planning

Evidence and research are expected to be at the core of the strategic planning process to define current state; determine desired state; and identify relevant goals, objectives, strategies and success measures.

Plans will include:

• meaningful evidence that informs district and school objectives and strategies with respect to students' intellectual, human and social, and career development; including but not limited to:

A shared commitment to improve student success and equity of learning outcomes for every student in public education in British Columbia

- o results for Indigenous students both on and off reserve; and
- o a comparative review of graduation quality data including:
 - Dogwood Certificates, Adult Dogwood Certificates, and Evergreen Certificates;
 - Students requiring skill and course upgrading for post secondary institution admissions;
- o a comparative review of disaggregated data for diverse cohorts of students
 - including data sets on Indigenous students, children and youth in care, and students with disabilities or diverse abilities;
- information and data masked according to Ministry's <u>Protection of Personal Information when Reporting on Small Populations</u> policy;
- provincially collected results in conjunction with locally collected evidence to inform local
 planning efforts and decision making (district data available using the <u>Reporting SharePoint for School Districts site</u>);

See Appendix K- Timelines for Provincial Data Release

- consideration of research-based high yield strategies to achieve goals and objectives;
- results from high-quality formative and summative assessment practices;
- consideration of diverse research describing characteristics of highly effective school districts and schools;
- analysis of triangulated evidence with multiple sources both provincial and local, and trends over time; and
- a variety of examples of local evidence such as:
 - o disaggregated attendance data;
 - o enhanced student, parent, teacher, and community surveys;
 - o competency-based student assessment tools;
 - school portfolios that communicate evidence in a variety of ways, and can be readily updated as new information becomes available; and
 - o locally developed assessment.

Description: Learn how using adaptative techniques and equity-focused learning can bring positive change for all students.

E| Setting ambitious goals and measurable objectives to achieve higher standards

To successfully implement strategic plans, districts are expected to coordinate planning with appropriate measured goals and objectives frequently assessed through a continuous improvement cycle. Strategic plan goals are developed to achieve higher standards. Objectives are measured through a lens of a continuous improvement cycle to achieve the goals set out by the district.

Goals should:

- be aligned with the Ministry Service Plan goals;
- be aligned with the First Peoples Principles of Learning;
- be developed to create momentum and a future planning mindset; and
- be evidence-informed using a cycle of improvement.

Objectives should:

- be Specific, Measurable, Achievable, Relevant, and Time-bound; and
- include measures indicating student success at district and school levels.

Sector Talk Video: <u>Setting Meaningful and Effective Strategic Goals</u> with Lisa Carson **Description:** Learn about the importance of developing meaningful and effective SMART goals to help build your strategic plan.

M	MEASURABLE	✓ Quantifiable✓ Data-informed✓ Improvement in Results
A	ACHIEVABLE	✓ Attainable✓ Realistic
R	RELEVANT	✓ Within scope✓ Emerging Priorities
Т	TIME-BOUND	≦ Short-term≦ Long-term

F Developing a robust implementation approach

Strategies need to be implemented and monitored to meet the objectives and the goals in the strategic plan.

School districts should select strategies that:

- are research-based and demonstrate effectiveness in improving student outcomes;
- address biases though an equity lens (e.g., Gender-Based Analysis Plus);

A shared commitment to improve student success and equity of learning outcomes for every student in public education in British Columbia

- target specific students to ensure the equitable opportunities for success (e.g., <u>Indigenous</u> Education Targeted Funding Policy, Special Education Target Funding Policy);
- are jointly determined with Indigenous rightsholders and Indigenous Education Councils specifically for Indigenous students;
- target emerging areas of need as determine through evidence-informed planning;
- are annually reviewed and adapted using an evidence-informed approach to improve learning and the quality and effectiveness of education programs in the district;
- develop capacity building at district and school levels through the use of existing and newly developed networks, cross-district teams, and professional learning opportunities and practices; and
- are shared annually to the public and the Ministry as part of the Enhancing Student Learning Report.

G| Strategic use of resources

Objectives and strategies should be practical in terms of what resources are available to achieve success.

The District Strategic Plan should:

- identify appropriate resources to implement strategies to meet district objectives;
- adhere to existing Ministry and district policies;
- include evidence of financial and other operational planning to support resourcing of strategies;
- · leverage existing resources which may require re-allocation; and
- target specific students to ensure the equitable opportunities for success (e.g., <u>Indigenous Education Targeted Funding Policy</u>, <u>Special Education Target Funding Policy</u>).

H Appropriate timelines

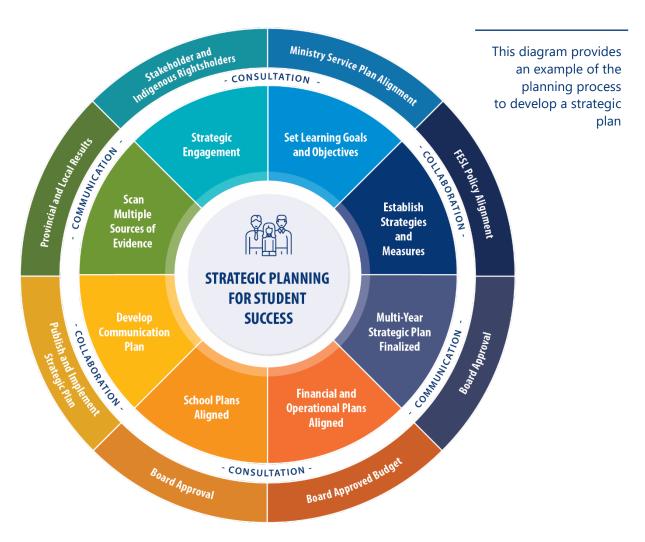

Timelines should be reasonable and in line with the scope of the district's overall planning and reporting cycle.

- the multi-year strategic plan (goals, objectives, strategies) with Board of Education (see Appendix F); and
- the district's annual results review process as part of a continuous improvement cycle (see Appendix G).

I Clearly articulated respectful language

Language should be clear, accessible and appropriate in describing what the district is trying to achieve.

Public communication should consider local context and:

- acknowledge the <u>traditional territories</u> the district and schools operate within;
- provide for accessibility and sharing using a variety of platforms;
- be provided in the languages common in the community;
- consider literacy levels of community members;
- demonstrate coherence in the district by aligning all key documents to the strategic plan; and
- outline an engagement plan that clearly articulates the monitoring and communication process including further engagement opportunities with education stakeholders, Indigenous Rightsholders and distinct Indigenous peoples and communities.

Use the district strategic and individual school plans to align all district annual operational plans, including but not limited to financial; human resources; information technology; engagement and communications; and long-range facilities plans.

Strategic alignment of operational plans is the process of orienting the actions of all school district schools, departments and staff members to the board's strategic plan. Performing a comprehensive strategic alignment of all operational plans helps districts to work collaboratively together toward achieving the district's goals. Strategic alignment is an iterative process and requires engagement in plan creation.

Strategic planning and alignment of operational plans is an on-going process. At minimum, the board should receive annual reports from staff showing the progress made towards the goals and objectives and recalibrate to reflect new strategies.

KEY OPERATIONAL CONSIDERATIONS:

District operational plans should:

- reflect and support the goals, objectives and strategies of the strategic plan;
- support principles of equity and inclusivity supporting individual students' needs, cultures and experiences;

Ministry of Education

COLUMBIA

A shared commitment to improve student success and equity of learning outcomes for every student in public education in British Columbia

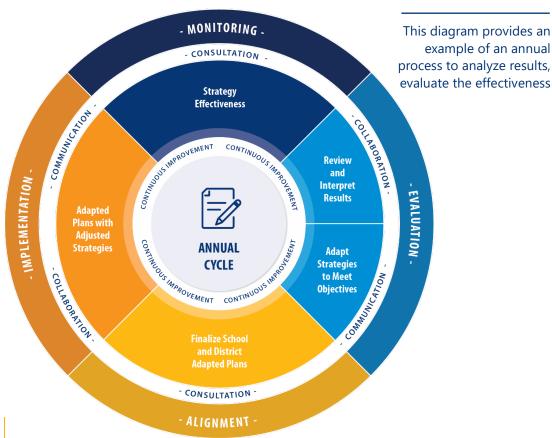

Participate in a continuous improvement review program

As part of the ongoing commitment to raise system performance, districts' participation in a continuous improvement cycle will ensure that each district is focused on the educational success of all students and that school district operations are effective and efficient.

A COMPREHENSIVE APPROACH TO A CONTINUOUS IMPROVEMENT CYCLE INCLUDES:

- analyzing a district's alignment of strategic plan goals given the results of both the district's
 provincially and locally identified educational outcomes intended to address inequities in student
 learning;
- acting on findings coming out of a continuous improvement cycle (see <u>Appendix G</u>).

A shared commitment to improve student success and equity of learning outcomes for every student in public education in British Columbia

SECTION E: REPORTING FOR PUBLIC ASSURANCE AND ACCOUNTABILITY

Publish and submit an annual report to the Minister between June 30th and September 30th

To support district planning efforts, a set of provincially-collected data will be compiled by the Ministry of Education and publicly reported for the province and each school district on the <u>Student Success website</u>. This evidence will also be shared on the Ministry of Education's Reporting SharePoint for School Districts site throughout the year as new data becomes available. This includes a masked PDF file reporting on all measures of the <u>Enhancing Student Learning Reporting Order</u> as well as an unmasked data file. Districts can append the masked file to their Enhancing Student Learning Report that should be submitted to the Ministry annually between June 30th and September 30th.
